

## Kensington L1000(K87653WW)

Kensington L1000 - Rengasvalo - 1 päät x 96 lamppu - LED - Tasavirta

Kensington's L1000 Bicolor Ring Light with Webcam Mount is an affordable, feature-rich lighting solution for quickly enhancing the way you look on video conference calls - providing optimum brightness for office environments and the ability to mount your webcam in the center of the ring for consistently perfect light distribution. Bicolor LEDs mimic lighting scenarios from sunrise to sunset, push button controls easily adjust brightness, and a ball joint mount offers flexible positioning. The L1000 is part of Kensington's Professional Video Conferencing ecosystem - a powerfully cohesive plug and play software and accessory experience that empowers you to spend more time collaborating and less time troubleshooting.

### Myyntiargumentit

- Optimized office lighting
- Adjustable color temperature
- Push button controls
- USB-A-powered
- Center-ring webcam mount
- Flexible positioning
- Wipe down protection

### Tuoteominaisuudet

#### Optimized office lighting

96 LEDs with 120° beam angle provide maximum light spread, a frosted lens distributes light evenly and a max brightness of 930 lumens perfectly augments the lighting in most office environments.

#### Adjustable color temperature

The bicolor LEDs offer a wide temperature range (cool, natural or warm) - so you can select the best light for you at any time.

#### Push button controls

Control the brightness of your L1000 with the push of a button - selecting between 10% and 100% via 10 increment settings.

#### USB-A-powered

No outlet required - simply attach to any open USB-A port (5V/2.0A) on your computer, docking station or other powered devices.

#### Center-ring webcam mount

Equipped with a webcam mount in the center of the light ring to ensure consistently perfect light distribution - even if you change the angle of your webcam.

#### Flexible positioning

The 1/4" ball joint mount offers 360° horizontal rotation and 200° of vertical movement so you can easily accommodate the best camera angles.

#### Wipe down protection

Meets MIL-STD-810H Method 504.3 Contamination by Fluids with disinfectants with no degradation.
